**AT STREAMLINE SUPPLY CO. WE BELIEVE  
IN TURNING EVERY POOL INTO A HAVEN  
OF SAFETY AND JOY. INTRODUCING OUR  
INNOVATION: THE ACRYLIC HANDHOLD, A  
GAME-CHANGER FOR POOL SAFETY.**

Unlike other options, the Streamline Handhold isn't just another clear acrylic grip. It's a secure lifeline that provides confidence to novice swimmers and peace of mind to pool owners.

**JOIN US IN CREATING A WORLD WHERE  
POOL SAFETY IS A PROMISE, NOT A  
CONCERN. STREAMLINE SUPPLY CO.'S  
ACRYLIC HANDHOLD IS THE ANSWER.  
LET'S MAKE A SPLASH TOWARDS SAFER  
SWIMMING.**

**1**

The new and improved hand hold was designed to have the axis of rotation below the point that needs to be bonded to the wall, leading to no excess force acting on the bonding surface. The result is a much sturdier hand hold!

**2**

With a 76% increase in bonding surface, our Handhold outperforms the competition. A mere 12 square inches isn't enough when safety is at stake. We've innovated to ensure a steadfast grip.

**3**

Streamline Handhold is engineered to resist capillary forces. No more water accumulation, no more mold, no more worries about durability.
